## Personal Statement

Recovery has given me a life I never could have imagined, and service has been a huge part of that journey. Through my years in NA service, I've grown as a person, built meaningful relationships, and learned so much about humility, gratitude, and putting principles before personalities. Service keeps me connected, reminds me why I keep coming back, and gives me the opportunity to give back to a fellowship that has given me so much. I am grateful for the opportunity to be part of something bigger than myself and remain committed to helping NA grow stronger so that the message of recovery continues to reach those who need it. I personally believe that addicts who give of their time and resources have time and resources to give.
